

THE UNIVERSITY OF SOUTH FLORIDA (USF) is a public research university in the state of Florida, United States.

The USF System includes three separately accredited institutions by the Commission on Colleges and Schools: USF; USF St. Petersburg; and USF Sarasota-Manatee. The USF St. Petersburg location is home to USF Health, including the College of Medicine, Nursing, Public Health and Health Services.

USF offers 235 degree programs at the undergraduate, graduate, specialty and doctoral levels. USF is a leader in the field of medicine. More than 2,000 distinguished scholars, researchers and expert teachers, new to the university, make up the USF faculty – including the 2012 U.S. Professor of the Year. In the last academic year, USF awarded 9,658 bachelor's degrees, 3,470 master's degrees and 728 doctoral degrees. In its 61-year history, USF has awarded a total of 367,930 degrees and has more than 100,000 students in the area.

USF is a member of the American Athletic Conference, with 17 men's and women's varsity sports at the NCAA-level. New facilities for practice and competition, along with a completely renovated stadium, have made the university's athletic facilities on par with virtually every top program in the country.

Governance

Effective January 7, 2003, a statewide Board of Governors was created pursuant to Article X of the Florida Constitution to operate, regulate, control and be fully responsible for the management of the State University System. The Board of Governors defines the mission of each university and ensures the well-planned coordination of the State University System. The Governor appoints fourteen members to the Board of Governors for seven years. The appointed members are subject to confirmation by the Senate. The Commissioner of Education is the chief executive officer of the State University System.

Budget. Each university has control over its own budget, once State funds have been received.

Appropriations. The Florida Legislature retains control of the appropriations process.

Tuition. The State universities have been granted certain powers with regard to setting tuition and the right to retain their own tuition revenues. Still, tuition-setting power for in-state undergraduate students remains largely in the hands of the Legislature, with lawmakers determining the maximum allowable rates of tuition increase and universities setting the tuition within those limits. The ability for the University to set and collect a number of student service fees provides a meaningful offset to limitations regarding tuition.

Bonding Authority. Bond-issuing authority is granted to the State of Florida and its Division of Bond Finance; the University can also borrow through its certified direct support organizations, pursuant to statutes, pledging appropriate revenues.

Strategic Plan. The University of South Florida Board of Trustees adopts a strategic plan for the University for successive five year periods. The current 2013-2018 Strategic Plan can be found here: <http://www.ods.usf.edu/Plans/Strategic/docs/USF-Strategic-Plan-2013-2018.pdf>

Buildings and Other Capital Facilities

The University of South Florida's campuses in Tampa, St. Petersburg, and Sarasota-Manatee are comprised of 1,646 acres, 1,562 of which are located at the main campus in Tampa, including the USF Research Park. The University facilities consist of 289 buildings that exceed 11.5 million gross square feet.

Capital Improvement Plan

The table below shows the capital improvement projects planned for the University's Tampa Campus (TPA), St. Petersburg Campus (STP), and Sarasota-Manatee Campus (SM) over five fiscal years commencing with the 2018-2019 fiscal year, as well as the proposed funding sources for each project. A majority of these projects will be funded from Public Education Capital Outlay monies generated from the collection of Gross Receipts Taxes levied on utilities and telecommunications services. Various other funding sources, including private funds and the sale of bonds, provide monies to finance the other capital improvement projects listed.

Students

Student Enrollment. Student enrollment at the University of South Florida has grown steadily over the past several years with a total enrollment of more than 50,000 students for the fall semester of 2017. The quality of students at the University of South Florida is evident by the achievements of its graduate students and alumni. The following table shows admission and registration data for the University.

Admission and Registration Headcounts and Percentages by Type of Student for Fall Semesters (All Campuses)

The table below shows the historical full-time equivalent ("FTE") enrollment of the University by level. FTE is calculated using the IPEDS (Integrated Postsecondary Education Data System) methodology. The full-time equivalent of the University's part-time enrollment is estimated by multiplying the part-time headcount by the IPEDS factor for 4-Year Public institutions. The results are then added to the full-time enrollment headcounts to obtain an FTE for all students enrolled in the fall. According to IPEDS, "This formula is used to produce an FTE that is used annually in the Digest of Education Statistics."

Research

In 2016-17, USF faculty received \$475 million in research contracts and grants. The College of Medicine led the University with \$286 million in contract and grants, which represents 60% of the total. Other University areas with large grant totals include the College of Engineering, \$45 million; College of Public Health, \$26 million; College of Behavioral and Community Sciences, \$24 million; and College of Arts and Sciences, \$22 million.

The largest share of contracts and grants came from federal funding sources with \$198 million of funding (42%). Private partnerships provided \$196 million (41%) and the \$82 million balance represents funding from state and local government (17%). The following table shows research funding over the past five fiscal years.
