

Sequential Intercept Mapping

Below is a list of abbreviations that may be helpful when reading the Indian River County Sequential Intercept Mapping (SIM) narrative and map.

ALF	Assisted Living Facility
ARF	Addictions Receiving Facility
ARNP	Advanced Registered Nurse Practitioner
ADC	Average Daily Census
ADP	Average Daily Population
APIC	Assess, Plan, Identify, Coordinate Model
BA	Baker Act
CIT	Crisis Intervention Team
CJMHS	Criminal Justice, Mental Health, and Substance Abuse
CJMHSATAC	Criminal Justice, Mental Health, and Substance Abuse Technical Assistance Center
C&C	Continuum of Care
COD	Cooccurring Disorders (substance use and mental health)
CRS	Central Receiving System
CRF	Central Receiving Facility
CSU	Crisis Stabilization Unit
CTTU	Crisis Triage and Treatment Unit
DCF	Florida Department of Children and Families
EBP	Evidence-Based Practice
EMS	Emergency Medical Services
ER	Emergency Room
FDLE	Florida Department of Law Enforcement
FDOC	Florida Department of Corrections
FACT	Florida Assertive Community Treatment
FDLE	Florida Department of Law Enforcement
FICM	Forensic Intensive Case Management
HIPAA

The SIM is based on the Sequential Intercept Model developed by Patricia Griffin, Ph.D. and Mark Munetz, MD for the National GAINS Center for Behavioral Health and Justice Transformation funded by SAMHSA. During the mapping the facilitators guided participants to identify resources, gaps in services, and opportunities at each of the six distinct intercept points of the criminal justice system.

The SM has three primary objectives:

- x Development of a comprehensive map of how people with SAMH disorders flow through six distinct intercept points of the Indian River County criminal justice system: Community Services, Law Enforcement and Emergency Services, Initial Detention and First Appearance, Jails and Courts, Reentry, and Community Corrections.
- x Identification of resources, gaps in services, and diversion opportunities at each intercept for individuals (18+) with SAMH disorders involved in the criminal justice system (target population).
- x Development of priorities to improve the system and service-level responses for individuals in the target population.

The Indian River County SM map is on page 21.

Indian River County history of collaboration between the behavioral healthcare and criminal justice systems is reflected in a number of existing local efforts. Ex.002 Tc -0.002 Tw 0.326 0 d

911 operated by Indian River County Sheriff's Office (IRCSO)

x If an individual is experiencing an apparent behavioral health crisis and

- o If an individual meets the criteria for an involuntary Baker Act examination, but has committed a felony offense or exhibited resistance, the person is transported to the Indian River County (IRC) Jail.
 - o If an individual meets the criteria for an arrest, but does not meet Baker Act criteria, the person is transported to the IRC jail.
- x After the body is transported to the jail, the person is held in the jail until the person is released or transported to a hospital for medical treatment.
- x If the person is transported to the jail, the person is held in the jail until the person is released or transported to a hospital for medical treatment.

- x Master's level mental health specialist assesses the individual and refers the individual to the appropriate services
- x Serves Indian River County, Martin County, Okeechobee County, and St. Lucie County

New Horizons of the Treasure Coast (New Horizons)

- x Twelvebed adult detoxification facility located in St. Lucie County
- x Serves Indian River County, Martin County, Okeechobee County, and St. Lucie County
- x Facility is

(Intercept 2 presents the jail booking and intake information)

Prevalence of Mental Health and Co-occurring Disorders

- x The jail's average daily population in 2017 was 462 inmates.
- x An estimated 20 percent of inmates are classified to be held in the medical wing and most of these individuals are already on psychotropic medications when they are booked into the IRC Jail.

IRC Jail Medical Wing

- x If an individual meets the criteria for a mental health diagnosis or are at risk of an involuntary Baker Act examination, they are housed in the medical wing.

- x There are 4 cells that house inmates in the medical wing.

- o or voluntarily
 - o Accepts individuals pre-plea or post-plea, incompetent to proceed (ITP), not guilty by reason of insanity (NGRI), as a condition of being based on their own recognizance (ROR) or on probation
 - o Individuals charged with a misdemeanor and/or felony
- x At the time of the mapping, the MHC was

- o MHC personnel need to balance court order requirements with treatment needs
- o Recommend a team building retreat to improve team approach
- o The MHC personnel need more information when the clients enter the court, need to communicate with providers
- o Crosstraining for court staff
- x High volume of MHC clients
 - o If the county had a pretrial release program, estimated 40 MHC clients would not be in the MHC.
- x In need of pretrial release program/diversion options
- x In need of additional substance use treatment services dedicated to MHC clients
- x Address the sustainability of MHC when grant funding ends

There is good collaboration among providers and the IRCSO.

- x There is an empty building in the jail that has the potential to house specialized treatment pods.
- x When possible, the jail maintains the psychiatric medication formulary that the inmate was on prior to arrest
- x The MHC clients have a continuity of care and they are not off the MHC caseload until they are connected to services and case management independent of the MHC.

At discharge, the jail provides individuals a voucher for a three-day supply of medication (prescription) to be filled at Walgreens. MHC clients are discharged with medication that the jail has on hand or, if that amount on hand is insufficient, a voucher for a three-day supply to be filled at Walgreens.

- x In general, there is no formal discharge planning for individuals released from jail who are not in a program.
- x Per an individual's request, the Public Defender's Office provides reentry assistance to secure housing.
- x Upon release, the IRC SO provides individuals a resource booklet that lists the community providers. This is not specific for the SAMH population.
- x Inmates are typically released at 12:01 a.m., but can request to be released at 7 a.m. in order to secure safe transportation.
- x Case managers at the IRC SO provide some transition planning for individuals exiting the MHC. Some inmates have community case management and their treatment services are monitored upon transitioning back to the community.

Need to implement formal transition planning in the IRC Jail

- o Evidence-based transition planning tool: Assess Plan Identify Ordinate (APIC) Model
- x

Based on the SM discussion, the participants developed a list of five priorities that will become the focus of the action plan.

-
1. Analysis of CJMHPA Reinvestment Grant Program Mental Health Court
 2. Comprehensive Screening and Assessment
 3. Expansion of Community-based Treatment
 4. Alternatives to Arrest (s)-4.3 0.71 0 Td (s)11 (e)-3 (s)-1.3 (t)7.9 ((s)-4.3 0.71 0 Td (s)11 (e)-3 (s)-1.3 (t)7

Priority Area 1: Analysis of CJMHSARvestment Grant Program-Mental Health Court

Objective		Action Step	Who	When
1.1	Sustainability of the CJMHSARvestment Grant Program-Mental Health Court(MHC)	x To conduct an analysis of how the current grant funds are spent	x Southeast Florida Behavioral Health Network (SEFBHN) x Public Safety Council for Criminal Justice, Metal Health and Substance Abuse x Indian River County Board of County Commissioners	October 2018
1.2	Team building for the MHC staff	x To conduct a team building retreat	x SEFBHN	September 2018
1.3	Process flow/ logic model for the MHC	x To produce a logic model depicting the design of the program	x External facilitator/grant writer	September 2018
1.4	Explore the feasibility of a mental health/drug treatment pod in the Indian River County (C) jail	x Tobegin a dialogue within the IR Sheriff's Office x To examine the financial impact of opening a designated/targeted pod		

261.0(R)-4.1 b1.0 Impact in terms of 2/15/4-01/11/19 (376 BT) by Sir City J2 BT (09/29/15) 1.03310241.60720126.36

Priority Area 2 Comprehensive Screening and Assessment

Objective		Action Step	Who	When
2.1	Comprehensive screening and assessment at booking and all applicable points of interception	<ul style="list-style-type: none"> x To develop an memorandum of understanding (MOU) between the jail, courts, and providers encouraging use of the same screening instruments and to share booking screening and HIPAA information x To review the GAINS Brief Jail Mental Health Screen 	<ul style="list-style-type: none"> x GwenMorse (SEFBHN) 	August 2018
2.2	Utilize the RiskNeedsResponsivity (RNR) model as a framework	<ul style="list-style-type: none"> x To obtain information on RNR x To develop a training plan 	<ul style="list-style-type: none"> x Katharine Alonso (Public Defender's Office) x Robyn Stone (State Attorney's Office) x Carrie Maynard (Substance Abuse Center of IRC) 	July 2018

Priority Area 3 Expansion of Community-based Treatment

Objective	Action Step	Who	When	
3.1	Develop a permanent supportive housing plan for individuals with serious mental illness (SMI)	<ul style="list-style-type: none"> x To identify leadership for the permanent supportive plan 	<ul style="list-style-type: none"> x Linda Kane (SEFBHN) x Brett Hall (Mental Health Collaborative) x Anthony Arroyo (Treasure Coast Homeless Services Council) 	Quarterly beginning in September 2018

Priority Area 4 Alternatives to Arrest and Diversion

Objective	Action Step	Who	When
4.1 Re			

1
Average of

the number of medication to be filled
