The March

State of the Project

The Project Drive team continues to review the Key Design Decisions (KDD) and Configuration Workbooks (CWB) that inform the design of the Oracle Cloud HCM system and how processes will transact within the system across modules. We are making steady progress, as 280 KDD across all modules have been approved by the Executive Leadership Team (ELT)! **By *keeping lines of communication open and setting clear expectations among stakeholders* during these review sessions, the team is building a culture of transparency** —a key culture trait essential to cloud success.
