

### PERSONAL SAFETY

- Walk in well-lit and well-traveled areas.
- Carry a flashlight (a keychain flashlight is convenient) in case you find yourself in a dark area.
- Avoid walking alone after dark.
- Make a safety plan with friends. Tell them where you are going and when you will get back.
- Do not drink anything that you did not open or mix yourself.
- Go out together, come home together; always use the “buddy system” when you are going to a party or a bar.
- Take a RAD self-defense course with University Police. Call 813-974-2859 to reserve a spot.

### HOME SAFETY

- Lock all doors and windows.
- Don't hide spare keys outside your residence.
- If you have a sliding door, place a long piece of wood in the door track to prevent the door from being opened.
- Keep your outside light on at night to deter criminals.
